**'reaction physics**

May 27th, 2020 - as described by the third of newton s laws of

motion of classical mechanics

all forces occur in pairs such

that if one object exerts a force

on another object then the

second object exerts an equal

and opposite reaction force on

the first the third law is also

more generally stated as to

every action there is always

opposed an equal reaction or

the mutual actions of two

bodies upon each'
