June 6th, 2020 - sunshine pass calculates the sun positions of today and visualizes them in an amazing augmented reality ar view the integrated true north pass is easy to use and helps you to orient yourself additional features view the sunrise sun transit and sunset of today view the sun positions of the shortest and longest day of the year automatically detects and shows your current location'

'the sun pass vikingseskibsmuseet i roskilde

June 4th, 2020 - the sun pass the sun pass is a true pass which works for a particular time of the year at a particular latitude it consists of a vertical stick which throws a shadow on an underlay the pass can be calculated mathematically but it can also be made by noting the passage of the sun throughout the day' 'make a

**viking sun pass 4
steps with pictures**

June 3rd, 2020 -
obviously the height
of the sun changes
throughout the year
so your sun pass will
only be accurate for
a few days it won't
make much difference
at first you'll still
get back to a
recognisable stretch
of coast and be able
to find your way home
by eye but eventually
it will be way out
the solution is to
create a larger sun
pass with a lot of
gnomon curves on it
at least one per'
