'Science in Ancient Greece Crystalinks'

May 24th, 2020 - Science in ancient Greece was based on logical thinking and mathematics. It was also based on technology and everyday life. The arts in ancient Greece were sculpture and painting. The Greeks wanted to know more about the world, the heavens, and themselves. People studied about the sky, sun, moon, and the planets.

'Ancient Egyptian Science and Technology'

May 19th, 2020 - yet there was a profound difference between modern science and ancient Egyptian science. While the modern scientist tries investigating phenomena by experiment, analysis, and a continual process of advancing hypotheses which either prove inadequate and are replaced by others or else lead to a general theory or conclusions, the ancient Egyptian scholars clung as a rule to the works of their ancestors.

'Ancient Egyptian Science and Technology'

May 26th, 2020 - The great temples and monuments of ancient Egypt continue to fascinate and amaze people in the modern day. The sheer size and scope of structures like the Great Pyramid at Giza or the Temple of Amun at Karnak or the Colossi of Memnon are literally awe-inspiring and naturally encourage questions regarding how they were built. All across the Egyptian landscape rise immense structures, thousands.

'Ancient Greece for Kids: Science and Technology'

May 27th, 2020 - History of ancient Greece: The ancient Greeks made many advancements in science and technology. Greek philosophers began to look at the world in different ways. They came up with theories on how the world worked and thought that the natural world obeyed certain laws that could be observed and learned through study.
