*December 20th, 2019 - Paul Krugman is
arguably the best explainer among major
economists today I have previously enjoyed
many of his popular books Pop
Internationalism The Return of Depression
Economics etc Here he applies his gift to a
major textbook I read the book from cover to
cover and found it well worth the effort'*

'Macroeconomics by Paul Krugman Robin Wells Alibris

December 22nd, 2019 - This book is very

helpful for the layman in attempting to

understand Economics Homey examples

from everyday life make concepts clear

Since I read Krugman everyday or so in

the NY Times his style is familiar to me

and his sense of humor and often light

touch makes his work in what is essentially

a dismal science very palatable Three
