'A theory of human motivation

April 24th, 2020 - After listing the

propositions that must be considered as

basic the author formulates a theory of

human motivation in line with these

propositions and with the known facts

derived from observation and experiment

There are 5 sets of goals basic needs

which are related to each other and are

arranged in a hierarchy of prepotency

When the most prepotent goal is realized

the next higher need'
