## **lighthouse**

**April 15th, 2020 - the eddystone rocks were a major shipwreck hazard for mariners sailing through the english channel the first lighthouse built there was an octagonal wooden structure anchored by 12 iron stanchions secured in the rock and was built by henry winstanley from 1696 to 1698 his lighthouse was the first tower in the world to have been fully exposed to the open sea'**

## **'marine chronometer**

**September 9th, 2019 - a marine chronometer is a timepiece that is precise and accurate enough to be used as a portable time standard it can therefore be used to determine longitude by means of accurately measuring the time of a known fixed location for example greenwich mean time gmt and the time at the current location when first developed in the 18th century it was a major technical achievement as accurate'**
