**'Compressible flow
Wikipedia**

December 15th, 2019 -
Compressible flow or
gas dynamics is the
branch of fluid
mechanics that deals
with flows having
significant changes in
fluid density While all
flows are compressible
flows are usually
treated as being
incompressible when the
Mach number the ratio
of the speed of the
flow to the speed of
sound is less than 0.3
since the density
change due'
